RESOLUTION DEMOUNCING VITO MARCARTORIO

THEREAS, Vite Marcantonic has demonstrated by word and by deed, in and out of Congress, his opposition to the basic principles and aims of the American Labor Party; and

MHEFEAS, Larcantonio falsely parading as the American Labor Party representative in Congress, by his actions in opposing measures to aid mational defense and to help Great Britain in its heroic stand against dictatorship, has created confusion in the public mind concerning the position of the American Labor Party on these questions and has tended to bring the Party into disrepute and disgrace; and

WHEREAS, Marcantonic although having been elected on the Republican and Labor Party tickets, represents neither party but rather does he speak and propolaim the Communist Party point of view; and

MCC PAS, these activities of Marcantonio who masquerades as an American Latarite while slavishly adhering to the line of the Communist Party, have tended to harm and injure the American Latar Party in its organizational, legisle tive and political efforts;

NUM, THE REPUIS, BE IT RESULVED.

That the American Labor Party at this City-Wide Conference here assembled in the Hotel Capitol on this 24th day of February, 1741, does hereby denounce, contemn, and specifically repudiate Vito Marcantonic, and does hereby publicly announce that the self-styled American Labor Party representative does not in any way speak or represent the views and opinions of the American Labor Party.

INTERNATIONAL LABOR DEFENSE

Costs GOP One House Seat

"Prom the military point of slaw the United Stage must be considered as an incider nation. We are separated from pointful enemies on the east and mest by broad and deep oceans. On our north-art and southern borders are nations which have been friendly heretofore. Across these land frontiers could come no armies of sufficient strength to menace our security. Our situation is not sincider to that of the British at the present time. Prior to the advent of air power the British at the present time. Prior to the advent of air power the British at the present countries. This complete implants is now compromised to the military sense in that they are subject to demaging attack by meeting based on the contenent.

"The armus of Europe and Ana do not menace us. To be a menace they must be transported across the sea in thirst. Airplanes on the cintinents of Europe and Asia do not manace us. To threaten seriously our continental security they must be consequed across the sea and operated from bases in an asser this bendishers.

"The ormed forces of no foreign nation or group of nations can arrivally thereign one continental security if me make pure that we remmand the was which separate as from all potential manning."

This statement was not made by those of as who are more approsing construction. It is found on page 2 of a report issued by the Committee on Naval Affairs of the Senate of the United States on May 15, 1940. This report was the unantonous opinion of the members of the Senate Committee which has made a thorough study of the problem of defense against invasion. Despite the fact that the press and others in authority have seen fit to keep the contents of his report from the American prophe, no one has yet even atmosphed to refute the conclusions contained therein. Hence the hysterical argument advanced by the proposents of the Burke Wadoworth Bill to the effect that we are in danger of necessful avances is not founded in fact, but so a lineal descendent of the war lysteria preparedures propagands of 1916 and 1917

A careful analysis of the events which have taken place since for President of the United States forescent the defense of the general welfare of the country for a war armament program demonstrates conclusively that armaments and conscription are not being undertaken for defenses purposes, but constitute preparedness for active participation in all majoritates war from which the American people have nothing to gain and all to lowe.

ARMAMENTS MEAN WAR

You cannot keep out of war when you become a military mustyear for one gide of the belligarents as against the other.

You cannot keep out of war with a war armament budget which will amount to \$19,000,000,000 in less than two years.

You cannot keep out of war by furcing the youth of America into a Europeanized military machine.

The President of the United States is himself an authority for these contentions. During the winter of 1936 at Buenos Aires, the President stated that out of his wide experience and historical study, nations which spend heavily on armaments "inevitably tace the day when their weapons of destruction must be used against their neighbors, or when an unsound consumy like a house of cards will fall apart."

The President himself, on May 16th, informed us that we had the higgest and hest Navy in the world.

Hence the conclusion is increasible. The program is armaments, not for defense, but for war; conscription, not for defense, but for war.

The similarity between 1916 and the war perparedum of todas is in great that it is shocking and alarming, except that in 1916, no one dared even to suggest conscription.

WHY CONSCRIPTION?

We are preparing, not for a war in lightly of the American prople and their interests, we are not preparing for a war in defence of med and women on W.P.A. we are not preparing for a war in defence of the men and women in the observand factories, we are not preparing for a war in defence of the interests of the time on the farms, we are not preparing for a war in defence of the number and in the mills, but we are preparing for a war to protect the make of the American dellar in the British passed, and for a possible extension of our impression in South and in Gentral America.

Sink a war in not a war of the American proper

Since such a war is not a war of the American people, it is only natural that the American people are overwhelmingly opposed to such a war. Therefore, it has become necessary by those who are compiring to catapule America into war so decays the Chill Rights and Liberties of the American prouds and so substants. Made systems for American Institutions. It is precisely because you not approved to such a war that the war compirates find it necessary to concerpt, to design, to forcibly take from the home your son, place him in a camp, indicates him, regiment him, heach out of his system every demonstrate concept which he had beared close a hiddhoud and then ared him to war,

THE BURKE-WADSWORTH BILL

This and this above is the scheme of things behind the Builts Watsworth Constriction Bill now pending before the Senate of the United States. The Burke Wadsworth Bill now provides for the following:

1. Compulsory registration of all makes between the ages of 21 and 31.

This feature, passed over lightly by the press, is the heart of the Bill. It would, by requiring all registered pressus to carry passessing us up a vast waters of Nazi-lake control ever the level of the millions of men and their families. It would supe out at one block the American way of life for which our forefathers fought.

2 Computery making training for a period of 12 months, to be extended undefinitely of the accessity exists.

The printing meet of Asterica, once required him their right to desert their cost future. They could be transferred to the same of traps without their concent for compalinely service up to 10 years. The B-H is disafted so that their required may be until to the futilities do for war, at any memoral.

i Lauteary to press reports, the fall contains no constitutional and enforcing pressures which requires an employer to rechire a man after the training presid in up. If the fall were to positions and of their means of support, with no right to return to such afterwards.

CONGRESSMAN VITO MARC ANTONIO

Probably one of the fiercest fights among the Democrats is being carried on in Washington at the present time. Southern Democrats hate the guts of this Communist but he made a deal with the northern Democrat and voted with them and the Administration demands that he be put on some important committee as this is his fourth term in Congress.

and later on his law partner, maintains a secret apartment in New York on 16th Street for his mistress and used this apartment as a meeting place for special Communist gatherings.

Mayor La Guardía has been in Washington Morcing the issue and de manding that Marc Antonio get his just dues. If it was up to the Democrats of the South his just dues would be a good kick in the pants

The real inside story is that La Guardia is trying to arrange a setup so that Vito could become a candidate for Mayor of New York City Vito has the backing of the left-wing of the American labor party and anything could happen in this cockeyed New York City during the war beriod.

VITO MARCANTONIO Re: INTERNAL SECURITY (C)

Dear Sir:

Enclosed herewith you will find two photostatic copies of the testimony of Congressman Vito Marcantonio before the Individual Exclusion Order Hearing Board, Second Service Command. He appeared as a witness before the board in behalf of one, ARLANDO/CENNARAZZO, who was being considered by the board for exclusion from the Eastern Military Area.

It is noted that Marcantonio was questioned in detail regarding his attitude toward American Aid to the Allies and his change of attitude after Russia entered the war. This testimony was all under oath and is being submitted for the Bureau's information and interest.

Very truly yours,
